Taking your reading

Place the cuff on your arm, with the bottom of the cuff approximately 2cm above the bend in your elbow. Always measure your blood pressure in the same arm. Make sure that you are sitting down and have both feet flat on the floor. Do not cross your legs. Support your arm on a firm surface with your palm facing up. Do not talk and try to relax.

Take two readings at least 1 minute apart. If the first two readings are very different, take 2 or 3 further readings. Keep a record of your readings then enter them here. Ideally take two readings twice a day for 4-7 days, to give a total of up to 28.

Your answers will always be seen by one of the practice team who will be in touch, if necessary.
